W. W. Norton & Company. Paperback. Condition: New. 896 pages. Dimensions: 8.0in. x 5.0in. x 1.7in. The first single-volume work to capture Freuds ideas as scientist, humanist, physician, and philosopher. What to read from the vast output of Sigmund Freud has long been a puzzle. Freudian thought permeates virtually every aspect of twentieth-century life; to understand Freud is to explore not only his scientific paper on the psychosexual theory of human development, his theory of the mind, and the basic techniques of psychoanalysis but also his vivid writings on art, literature, religion, politics, and culture. The fifty-one texts in this volume range from Freuds dreams, to essays on sexuality, and on to his late writings, including *Civilization and Its Discontents*. Peter Gay, a leading scholar of Freud and his work, has carefully chosen these selections to provide a full portrait of Freuds thought. His clear introductions to the selections help guide the readers journey through each work. Many of the selections are reproduced in full. All have been selected from the Standard Edition, the only English translation for which Freud gave approval both to the editorial plan and to specific renderings of key words and phrases. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
