Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Yale University Press, United States, 2014. Hardback. Condition: New. Language: English . Brand New Book. Compiling four-hundred-plus unique works of art, this volume traces the shifts and developments in conceptual artist John Baldessari's work from 1975-86. It covers his photo-based works such as the Strobe, Word Chain, and Pathetic Fallacy series from 1975; the Violent Space and the seminal Concerning Diachronic/Synchronic Time: Above, On, Under (With Mermaid), from 1976; and the Blasted Allegories series from 1977-78, which drew heavily from the artist's vast collection of photo stills taken from commercial television. In the 1980s, Baldessari's art took a different direction, beginning with the expansive Fugitive Essays triptychs from 1980 and leading to 1982's photographic interpretations of Grimm's Fairy Tales. Building on these themes, Baldessari began producing a body of work that was inspired in part by dreams, psychology, film, and popular culture. Ensuing works were more formal, elaborate, and large-scale. From 1984 to 1986 Baldessari created a number of works that employed his soon-to-be-signature colored discs painted over people's faces in the photos. An introductory essay will provide a close reading of selected works and a historical context for understanding Baldessari's art from this period. A detailed chronology and exhibition history and bibliography are also included. This is the second of a projected four-volume catalogue raisonne.
