Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

John Wiley Sons Inc, United States, 2018. Hardback. Condition: New. 2nd Edition. Language: English . Brand New Book. Praised for its visual appeal, conversational style and clear explanation of complex ideas with minimal mathematics, *Electricity from Sunlight* has been thoroughly revised and updated to reflect advances in the global PV market, economics and installed capacity. Key features of the 2nd edition include: A timely update of the advances of photovoltaics (PV), with major new material on grid-connected systems. More in-depth treatment of PV scientific principles, solar cells, modules, and systems. Up-to-date coverage of the PV market including conversion efficiencies and the expansion of grid-friendly power plants. End-of-chapter questions to support instructors and students through guided self-study. New chapters on manufacturing processes and on materials and other resources availability. New large-scale PV section covering the growth of global capacity, utility-scale PV and affordable solutions for intermittency. Systems analysis of new applications empowered by low-cost PV, such as energy storage and water desalination. Significantly expanded economics and environmental section explaining leveled cost of electricity versus upfront costs, energy return on investments, and lifecycle analysis. *Electricity from Sunlight: Photovoltaics Systems Integration and Sustainability*, Second Edition is an essential primer for new entrants to the PV industry, needing a basic appreciation of complete PV systems, and to students on undergraduate and graduate courses on renewable energy and photovoltaics. It also offers a unique treatise of the sustainability of emerging transformative technologies, which makes it useful to both system analysts and energy policy strategists.
