Createspace, United States, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. In no direction has the idea of evolution been more fruitful than in the stimulation of speculation and discussion in the region of ethical thought. This is natural, for none of the forms of this now dominant mode of viewing physical and psychical phenomena can be completely harmonized with the old-fashioned forms of ethical theory; and hence moral philosophers of all schools have had to largely revise their basal conceptions. The empirical ethics of half a century ago has become the evolutionary ethics of to-day; and while intuitional ethics still maintains its ground in a somewhat modified shape, it is evident that a large proportion of thinkers of the mental type which in the last generation found satisfaction in intuitionism have now transferred their allegiance to the idealist or Hegelian school of ethical thought. The extremely interesting and valuable Study of Ethical Principles, now before us, betrays on nearly every page the influence of Hegelian thinking; but while much of the force and beauty of the book is undoubtedly to be traced to this source, the author, like his brother, Professor Andrew Seth, has been led by independent thought to the rejection of the more essential articles in the Hegelian creed. As has frequently been pointed out, Hegel and his followers have done immense service in emphasizing and developing certain fertile ideas, such as the immanence of the universal in the particular, and the distinction between mechanical and final causation; these ideas, however, are neither the exclusive property nor the distinctive features of the Hegelian philosophy. In Professor Seth's work, these great and influential thoughts, which are rather Platonic and Aristotelian than especially Hegelian, are expounded and unfolded with much lucidity...
